9:00-9:15 Introductions

What is an Electric Cooperative?

Following the introductory session, attendees will be broken into five groups and spend 30 minutes at each of the following stations:

Station 1:

Line Tools and Equipment

See and operate tools lineworkers use to maintain distribution power systems.

Station 2:

Dress for Safety

Try on the important gear that lineworkers use to climb poles and handle power lines safely.

Station 3:

Build a Crossarm

We'll show you how to build a crossarm and put your skills to the test.

Station 4:

Underground Work

Learn how underground distribution systems operate and how to locate conductors in the ground.

Station 5:

Line Cover

Learn how to apply proper line cover to electric power lines for safety.
