

APPLICATION FOR DISTRIBUTED RESOURCE

Return Completed Application to: FIRELANDS ELECTRIC COOPERATIVE, INC.
Attention: Renewable Energy Application
P.O. Box 32, New London, OH 44851

Member-Consumer's Name: _____

Mailing Address: _____

Service Point Address: _____

Contact Person: _____

Telephone Number: _____

Information Prepared and Submitted By: _____

If form is not being completed by cooperative member, please provide company name, address,
and phone number: _____

The following information shall be supplied by the cooperative member-consumer or their designated representative. All applicable items must be accurately completed for the proposed generating facilities to be evaluated for interconnection with the cooperative's distribution system.

GENERATOR

Renewable Source Type (Solar, Natural Gas, Wind, etc.): _____

Manufacturer: _____

Type (Synchronous, Induction, or Inverter): _____

Number of Units: _____ Kilowatt Rating (95 F at location): _____

Kilovolt-Ampere Rating (95 F at location): _____ Power Factor: _____

Voltage Rating: _____ Ampere Rating: _____

Number of Phases: _____ Frequency: _____

Do you plan to interconnect the generating system and operate in parallel with the cooperative's distribution system? _____ Yes _____ No

If Yes, do you plan to export power? _____ Yes _____ No

If Yes, maximum amount expected: _____

If Yes, do you expect the amount of exported energy to exceed your requirements for electric energy at the service address on an annual basis? _____ Yes _____ No

Estimated annual electric energy requirement at service address is _____ Kilowatt-hours

Do you plan to use output of facility to serve your electric load? _____ Yes _____ No

Do you plan to retain, release to the cooperative or Buckeye Power, the generator's environmental attributes (i.e. renewable energy credits)? _____ Retain _____ Release

Expected energizing and start-up date: _____

Describe Operation Expectations: (i.e. provide power to meet base load, demand management, standby, back-up, other) _____

Testing results, which document conformance with the cooperative's technical requirements, are required in order to complete the application process. Generator manufacturer machine characteristics must also be supplied to the cooperative in order to complete application. Are they supplied with this form? _____ Yes _____ No

All necessary government permits and approvals must be obtained for the project in order to complete application. Has this process been completed? _____ Yes _____ No

A system diagram is required to be submitted with this form. Is a layout sketch showing a lockable, "visible" disconnect device attached? _____ Yes _____ No

Generators over one (1) MW must be certified as a qualifying cogeneration or small power production facility to export power. If system is over one (1) MW, has the generator been certified as a qualifying cogeneration or small power production facility under the Public Utility Regulatory Policies Act of 1978? _____ Yes _____ No

Prospective net metering customers must receive approval to interconnect from their electric supplier prior to installation of the generation system. The net metering application fee must be paid prior to installation of net metering system.

Application fee: \$260 (effective May 20, 2019)

Make checks payable to:
FIRELANDS ELECTRIC COOPERATIVE, INC.
